

Internship Report – Day 23

Date: 27/05/2025

Name: C H Uday Kumar

Roll.no: BU22CSEN0300538

Internship Program: ParkNSecure – Smart Parking Solutions

Day 23 Overview:

As I completed the task given the CEO to the train the model I have built it according to him right now I am working on creating a landing page as he said .

so I want to build a 3d modeled animated landing page so before building it I have to learn to create the 3d model in the blender and then have to learn how to create the environment to build a complete parking lot area and then have to write the scripts to move a car and then park them in the parking lot in the 3d animation so I am the learning the unreal engine to build so right now I am seeing the tutorial and then learning and building game called ancient temple adventure .

Tools Used Today

BLENDER , CHATGPT , TRAE , DORA , SPLINE .

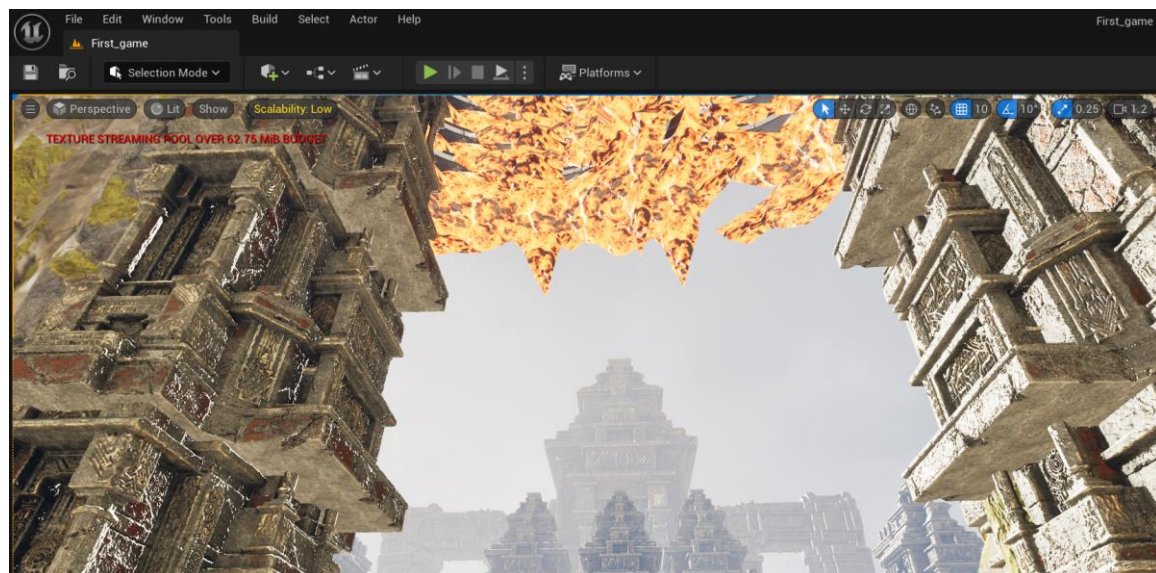

Task Given:

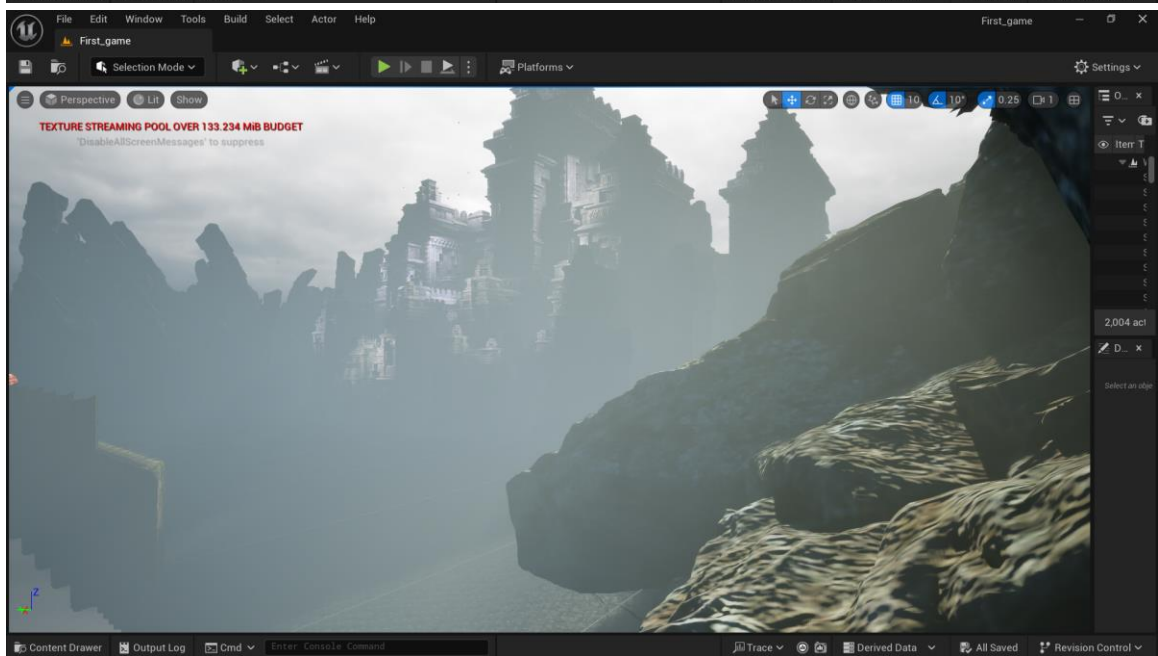

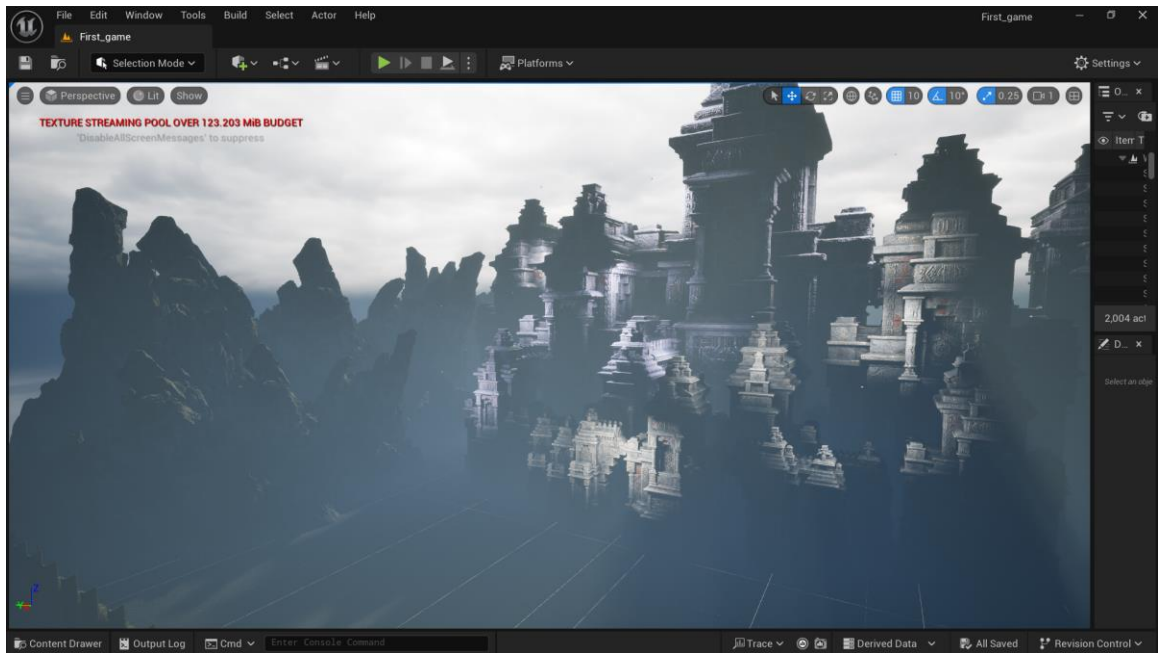

TO CREATE THE ANPR MODEL TO DETECT THE LETTERS AND NUMBERS PRESENT IN THE VEHICLES NUMBERPLATES.

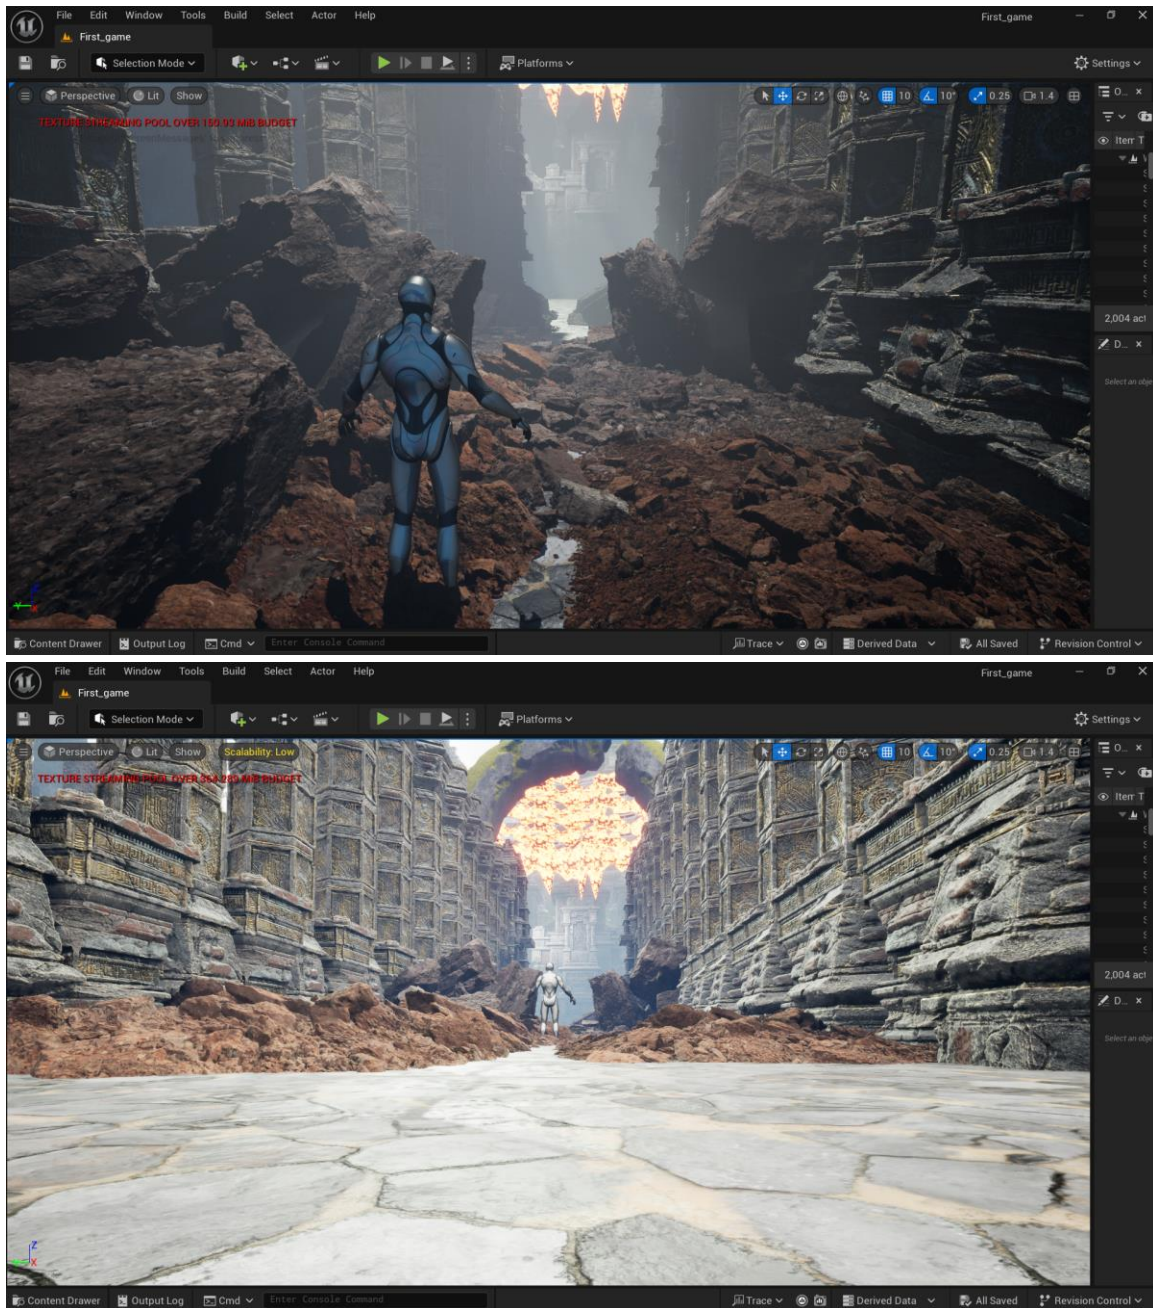

Approaches:-

I HAVE TRIED BUILDING THE 3D MODEL IN THE BLENDER WITH THE HELP OF YOUTUBE VIDEO SO THAT MY MODEL CAN BE USED IN THE 3D ANIMATED WEBSITE .

Attachments:-

Added the background assets and then added the lighting the effect for the temple and the other assts like rock and the realistic sand has been created .
